FRIENDS OF HOME LABOR, LOOK AT THIS!

– England may rely upon GEN. PIERCE for effectual co-operation.—*Manchester* (England) *Examiner.*

– *The primary question for the United States in the election, as it is for ourselves in the electoral contests of this week, is the national question, and inviolable establishment of Free Trade. The triumph of the candidate of the Democratic party, brought forward by the men of the North, will secure, probably for years, the ascendency of liberal commercial principles. In this respect, and on this point, we take Gen. Pierce to be a fair representative of the opinions of Mr. Calhoun, and, as such, a valuable practical ally to the commercial policy of the country. Gen. Pierce has our best wishes for his success.*"—*London* (England) *Times, July 6, 1852.*

– *When the Cid has crossed the Atlantic, he begins for the first time in his life to consume the manufactures of this country (England) and indirectly to contribute to its revenues. He may possibly live to see the day when the chief produce of Ireland will be cattle, and Scotch the majority of her population. The sons or ten millions of Irish, who by that time will have settled in the United States, cannot be less friendly to England, and will certainly be much better customers to her than they now are.*"—*London Times.*

Resolved, That the Convention does not confer on the General Government any power to commence and carry on a general system of internal improvements.—*Baltimore Democratic Platform.*

"Look at that list! On one side, in favor of the measure, you will see all the Northern votes, with the exception of a few over-faithful and over-too-much-to be honored Northern Democrats. Among these last, our eye rests with *unexpressible pleasure* upon the name of HALLY HERRICK, of New Hampshire, and the friend of FRANKLIN PIERCE, and, we believe, the Representative of his District. A little lower down is that of PEASLEE, another Granite State Democrat. With Hilliard, Peaslee and Jackson, stand nearly every Democratic member of Congress from the South." –*Savannah Georgian* on the River and Harbor Bill.

"This kills the first of the sort that has been passed for a long time, and *it will be the last for four years at least.* FRANKLIN PIERCE will come into power on the 4th of next March. A strict construction and respect for the constitution is the Modern law of the Democratic party; and Mr. Pierce, besides this personal reason, *is bound by every idea of consistency, and by every fact of his past career, to veto every bill like this.* He will do it, if they are presented to him, JUST AS SURELY AS THERE IS A HOT IN HESKEY."—*Richmond Examiner*, Hiver and Harbor Bill.

SCOTT MEETING.—The Executive Committee of the Scott Club meets *this evening* at the Head Quarters on Wisconsin Street, at 7½ o'clock.

RAIL ROAD MEETING.

We publish this morning a full report of the proceedings at the Rail Road meeting in Market Hall on Monday evening last. The meeting was very largely attended, nearly every prominent business man and a large proportion of our taxpayers being present. The question presented, to-wit, the expediency of loaning the credit of the City in aid of the La Crosse Rail Road; was discussed at considerable length and with great animation. In support of the proposition its advocates enlarged upon the general importance of Rail Road enterprises and the especial benefits which would enure to Milwaukee from the construction of the La Crosse road. They contended very earnestly that the City would never be called upon to pay a cent of interest or principal on the bonds proposed to be issued; that the completion of the road would greatly enhance the value of our real and personal property; that other cities and channels would carry off the trade of Northwestern Wisconsin, and the regions beyond the Mississippi, unless, the road shall be built; that the success of the Milwaukee and Mississippi Rail Road, now no longer problematical, divested this new project of the character of an *experiment*, and presented it in the light of a practicable and promising enterprize; and finally that all that was asked now, was simply to submit the matter to a vote of the People, at the same time and under the same conditions that the vote was to be taken on the Fond du Lac and Lake Shore Rail Roads.

In reply to these considerations the opponents of the proposed loan insisted very strongly that the question was not whether the construction of this road would be beneficial, or not to our city. Upon that point there was no difference of opinion. It was conceded that the more such avenues of communication we had with the interior, the better we should be off. But the question arose, whether, in addition to the enterprizes already in hand, the city could afford to shoulder any additional burden; whether, in fact, it would not be straining our credit too far, and running unnecessary risk; and whether, by so doing, we should not cripple the means and impede the ability of the City to complete what it had already undertaken.

The discussion was protracted till half-past 9 o'clock, when the question was clamorously called for, and the report of the majority, which was against loaning the city credit in aid of the La Crosse Road, was adopted, on two divisions, by a decided vote. On Thursday (to-morrow) afternoon, the sense of the People is to be taken upon the question of loaning the city credit in aid of the Lake Shore and Fond du Lac Roads. We hope to see a full vote and a fair expression on these important subjects.

NO TONNAGE DUTIES.—We are glad to see that the Senate struck out from the River and Harbor Bill the section authorizing the commissioners of the town of Wilmington, North Carolina, to levy and collect tonnage duties for the purpose of clearing out the obstructions in the mouth of Cape Fear river.

So that notable project of shirking responsibility on the subject of internal improvements is, so earnestly advocated by Senator Douglas, has quite fallen through.

Secretary Corwin and the Gardiner Claim.

The "Democratic" press teems with abuse of Hon. Thomas Corwin, Secretary of the Treasury, for an alleged connivance with Dr. Gardiner, in getting his large claim allowed by the Mexican Commissioners on claims. One Mr. Olds, of Ohio, made himself very conspicuous in Congress by repeating these charges in an offensive manner.—The object was evidently to get the charge before the country in the most public manner possible, by moving a committee to examine into the matter near the end of the session, and then pleading want of time to examine into the affair.

The programme was carried out probably, but the committee found Mr. Corwin altogether too ready to meet his accusers. The following notes from Mr. Corwin to the Chairman of the Committee will show in what position he stands:

Washington, Aug. 24.

SIR:—Among the published proceedings of the House of Representatives on Monday, I have observed a resolution of inquiry into my connexion with the claim of Dr. Gardiner before the late Mexican Commission.

I see by the published proceedings of that day that you are the chairman of the committee raised on that resolution. As the session of Congress is fully comprehend my extreme anxiety that your investigation, so far as I am concerned, should proceed with the utmost possible despatch.

I therefore most respectfully ask that you will inform me, by the bearer of this, when I may have the opportunity of presenting testimony to the committee. Very respectfully,

THO. CORWIN.

Hon. ANDREW JOHNSON, Chairman Select Committee House of Representatives.

Mr. JOHNSON said the committee met immediately upon the receipt of this letter, and that Mr. Corwin was authorized to attend on the next morning; and they then agreed to make the report which, a short time since, was made to the House.

The second letter from Mr. Corwin to Mr Johnson is as follows,

Washington, 26th August, 1852.

SIR: I understood this morning that the special committee, of which you are the chairman, have resolved that they cannot proceed with the investigation assigned to them.

The anxiety expressed by me to the committee that it should investigate and report at the present session, induces me now to request that the committee shall ask and obtain leave to sit in the vacation, and close the matter, so far as I am concerned, as soon as possible.

Very respectfully,

THO. CORWIN.

Hon. A. JOHNSON, Chairman Special Committee, House of Representatives.

So the House authorised the Committee to sit during the recess. We have no fears as to the result. We only note the matter now, to call the attention of our readers to it, and to have them mark how many of the Locofoco press will do Mr. Corwin the justice to publish his present position in the matter, and his vindication by the committee.

MORE AUTHORITIES.

The *Sentinel* is engaged in a violent effort to prove its own leading party organ in N. Hampshire, a bold and unblushing liar; and to show that the entire Catholic press of the country is guilty of falsehood.—*Morning News.*

The *Sentinel* has not only made no such attempt, but has not said *one word* which admits *by possibility* of such a construction. In other words, the assertion of the *News* shows it to be precisely what it says we seek to prove our "leading party organ in New Hampshire."

Again, pursues the *News*:

The editor of the *Sentinel* is a Protestant, and pretends to be a friend to religious liberty. Yet the Catholic gentlemen at the head of the papers quoted above, have uniformly exhibited a more just, honest, tolerant, and liberal spirit, than himself. He has sought to drag their religion into politics—they have resisted it.

We have never sought to drag "religion into politics," but only to expose the demagogues (the *News* included) who are constantly harping on this topic, and trying to turn it to political account. This very "Test" discussion was commenced by G. M. DALLAS, at the Democratic ratification meeting in Philadelphia. He went out of his way *falsely* to charge the Whigs of New Hampshire, minority tho' they be, with the responsibility for this odious and illiberal restriction. This, of course, provoked reply and led to inquiry. The result is, that the responsibility has been *fastened beyond escape* upon the Democratic majority in New Hampshire. They had the power to abolish the Test, and *refused to do it*, while Whig North Carolina, more liberal than her *bogus* Democratic sister State, New Hampshire, swept it from her statute book.]

STATE FAIR.

At the Railroad Meeting on Monday, there being a very full turn-out of our citizens, it was thought to be a good opportunity to bring the subject of the approaching State Fair before the People. Accordingly, while the Committee on Resolutions were absent, Mayor CROCKER reminded the meeting, that the State Fair was appointed to be held in this city early in October; that considerable preparation was necessary to make it what it should be, and that a Committee ought to be appointed without delay, to take the matter in hand. Other gentlemen seconded the Chair's suggestions, and, on motion of Mr. RANDALL, a Committee of fifteen, three from each Ward, were appointed, to collect subscriptions and make other necessary arrangements. We hope that this Committee, whose names will be found in our report of the meeting, will enter upon their duties forthwith, and prosecute them diligently.

It would ill become Milwaukee, after the State Fair has been located here, and great expectations raised as to the extent and character of the Exhibition, not to manifest a lively interest, and to make all suitable efforts towards ensuring its complete success. We trust, therefore, that the Committee will meet with cordial encouragement from all classes of our citizens, and that the amount necessary to defray the indispensable expenses of the Fair, will be promptly and freely subscribed.

ONE OF THE TRAINS!—The Freight Train on the Milwaukee and Mississippi Rail Road, which came in from the West at 11 o'clock yesterday morning, was a sight to see. It consisted of four passenger cars, six Platform cars and nine covered freight cars, all loaded full. There were 4500 bushels of grain and 150 passengers in the train; and the conductor, Mr. MERRILL, informed us that he had left some 1500 bus. at different stations, for want of cars to bring it in. And this, tho' as yet the road extends out but 42 miles from our city and has just reached the borders of the Wheat region. A fortnight more will see the road finished to Whitewater (50 miles) and by November Milton (62 miles) will be in direct communication with Milwaukee. Where be the doubters now? If any be left, let them take a walk down to the Rail Road Depot at 11 o'clock to-day and see and judge for themselves.

☞ The attention of the Sentinel is directed to the fact that the Hon. *Chief Justice*, Joseph C. Hornblower, presided at the Whig mass meeting at Trenton, N. J., on the 2d inst., and "made an eloquent speech." Chief Justice Hornblower is one of the most prominent Judges of the country, and distinguished for integrity, piety, and talent. Wonder if the Sentinel, that immaculate guardian of public and private morals, thinks that Judge Hornblower did not "appear to much advantage" at that "political meeting."—*Wisconsin.*

Here is another of the *Wisconsin's* absurd blunders. Judge HORNBLOWER has not occupied a seat on the Bench those five years past! He wears, indeed, the title, as he once most worthily filled the office, of "Chief Justice," but he no longer occupies that post. Judge HORNBLOWER is all that the *Wisconsin* paints him, and his presence and participation in the glorious gathering of the Jersey Blues on the Battle-field of Trenton, is a most encouraging sign of the times. Try again, neighbor!

☞ The Boston *Courier*, on what it gave as the authority of Hon. N. P. Banks, (Coalition Speaker of the Massachusetts House of Representatives) said that Mr. Webster had recently declared that "he would rather see the electoral vote of Massachusetts given to Pierce than Scott." Mr. Banks denies that Mr. Webster made any such declaration to him.

THE RAIL ROAD MEETING OF MONDAY.—The *Free Democrat* of yesterday speaks of this meeting as "a disgraceful affair" and proceeds to instance wherein it was deserving of censure:

The meeting was prematurely organized in one corner of the room, by about 20 persons:

The meeting was called to order by Mr. CARY, standing nearly in the centre of the Hall, at 20 minutes *past* the hour designated in the notice, and when there must have been some 200 persons present:

Not one of the Committee appointed to call this meeting—and whose appropriate business it was to call it to order—was present but Gen. King, and he had not felt interest enough in the matter to attend the Committee meeting. Col. Crocker, the Mayor—just the man for the work) required—was made Chairman, Gen. King, Secretary.

"Gen. King" was *not* made Secretary. Messrs. Ogden and Prentiss occupied that position. That we did not attend the Committee meeting is true, not for lack of "interest," but simply for want of time. We did attend the general meeting, however, and reported the proceedings.

The *Democrat* avers that there was a good deal of "drumming up" during the day by the opponents of the loan. So there was by its friends.—Both sides had evidently been busy. It is positive, too, that the Mayor decided wrong. Others are just as positive that he decided right. Looking from the platform, after the house divided, the larger number was clearly on the East side of the for the majority report. Assuredly Col. CROCKER is not the man to have so decided unless he had so believed.

☞ W. A. HOWARD has been unanimously nominated for Congress in the 1st Michigan district, by the Whigs, on the first ballot. They talk strongly of electing him, too.

SAUK COUNTY STANDARD.—Mr. G. R. Clarke has disposed of his interest in the *Standard*, to C. H. MCLAUGHLIN, Esq. Mr. D. S. VITTUM is to be the editor under the new arrangement.

Railroad Meeting.

Pursuant to public notice, a very large meeting of the citizens of Milwaukee convened at Market Hall, last evening to consider the subject of loaning the City credit in aid of the Milwaukee and La Crosse Rail Road.

The meeting was called to order by CHARLES CAIN Esq., and, on his motion,

HANS CROCKER

was nominated as Chairman and

THOMAS L. OGDEN
WILLIAM A. PRENTISS

selected as Secretaries.

The Mayor stated the object of the meeting: It was to consider the subject of aiding the Milwaukee and La Crosse Rail-Road. Two meetings had already been held and the sense of the people expressed on the subject of aiding the Lake Shore and Fond du Lac Rail-Roads. And in obedience to a request of these meetings, the Common Council had fixed upon a day for taking a vote of the People upon the question of loaning the City credit in aid of these two roads. Subsequently a meeting was held at the American in this city, at which the Common Council were requested to include, in the questions to be submitted to the People, the project of aiding the Milwaukee and La Crosse Rail Road—And this public meeting had been called to further the request so made and to bring the whole subject before the People. The Mayor closed by inviting any gentlemen present, who desired to address the meeting, to do so.

Mr. D. A. J. UPHAM, in order to bring the business in form before the meeting, moved the appointment of a Committee of five to report resolutions.

The motion prevailed *nem. con.* and the Chair appointed Messrs. D. A. J. UPHAM, ALEXANDER MITCHELL, BYRON KILBOURN, J. A. HOOPER and GEO. H. WALKER said Committee.

During the absence of the meeting, the Mayor called attention to the fact that in just one month from this date, the State Fair was to be held in this city, and that it was highly desirable to make timely and sufficient preparations for that attractive gathering. He thought that the present was an excellent opportunity for appointing a Committee, with full power to make all the necessary arrangements.

Mr. FRANCIS RANDALL explained the conditions upon which the location of the State Fair was fixed at Milwaukee, and the amount of expense which would necessarily be incurred in carrying out the agreement entered into between the State Society and the citizens of Milwaukee. Mr. RANDALL also dwelt at some length upon the very great advantages which the city of Milwaukee would derive from the proposed Agricultural Exhibition, and the consequent inducements which our citizens had to make liberal subscriptions, in aid of the object. He closed by moving the appointment of a committee of three from each Ward, to collect subscriptions, and, in conjunction with the officers of the Society, to expend the means so raised.

Mr. S. M. BOOTH sustained the motion, and pointed out the benefits, pecuniary and other which Milwaukee would reap from the State Fair

The Chair having put the motion, it was carried *unanimously* and the following committee announced:

First Ward.—E. B. Wolcott, James Johnson, Rufus King.

Second Ward.—F. Randall, F. Heubschman, J. A. Hooper.

Third Ward.—E. Bottou, W. W. Brown, J. H. Cordes.

Fourth Ward.—S. M. Booth, C. H. Williams, S. C. West.

Fifth Ward.—L. W. Weeks, G. H. Walker, S. E. Martin.

The Committee on resolutions having returned, Mr. ALEXANDER MITCHELL, from the majority of the Committee, submitted the following resolution:

Resolved, That this meeting deem it inexpedient at this time to recommend to the city to lend its credit in aid of the construction of the La Crosse and Milwaukee Rail Road, or to ask the Common Council to submit any question to the vote of the people on this subject.

Mr. UPHAM, from the minority of the Committee, submitted the following report:

Resolved, That we look upon the project of the La Crosse and Milwaukee Rail Road, as equal in importance at least to the interests of this city and the State generally, to any railroad that has yet been chartered, and that we recommend, that the credit of Milwaukee be extended to this road, in common with the Lake Shore and Fond du Lac Roads.

Resolved, That we request the Common Council of Milwaukee to submit the question of aiding this road to the same vote of Milwaukee, at the same time and upon the same conditions and to an amount not exceeding $230,000, as they have been requested to do in the case of the other two roads.

Mr. UPHAM proceeded to enforce the minority report. This, he said, was the first of the recent Rail Road meetings he had attended: but his opinion in favor of the Milwaukee and La Crosse Rail Road was formed some years ago. He was not himself a Director in any Rail Road, nor had he any interest in one, save as a citizen and property-holder in Milwaukee. He fully believed in the importance of the Milwaukee and Mississippi Rail Road. But he believed too, that there was ample room and would be abundant business for another road from this city to the Father of Waters. The first ran Southwest, the second Northwest from Milwaukee and they debouched upon the Mississippi 100 miles apart. Mr. UPHAM proceeded to show how much Chicago had advanced her interests by urging forward these Rail Road enterprises, and how much Milwaukee had to gain by manifesting a like degree of public spirit. He next described the character of the country northwest of the Wisconsin, which he spoke of as remarkably beautiful and admirably adapted to the purposes of Agriculture. He spoke further of the importance of a Rail Road connection with the Iron Ridge, and closed with an earnest appeal in favor of granting the proposed aid to the Milwaukee and La Crosse Rail Road.

Mr. ALEXANDER MITCHELL addressed the meeting in support of the majority report. He made no pretensions to public speaking. But he spoke as a business man on a business question. Rail Roads afforded a fine theme for flights of imagination. But he had long since learned that neither speeches nor resolves *built* Railroads. It required *money* to do that, and the whole question here was, had we the means at present to go ahead with this new work. For one, he thought there was such a thing as pushing our credit too far, that we should alarm capitalists by undertaking too much: that it would be time enough to think of building, or aiding in building this road to La Crosse, after we had completed the enterprises already in hand, and demonstrated that they were *paying* roads.

Mr. KILBOURN followed in support of the minority report, strongly insisting that no money or credit was asked from Milwaukee *now*, but simply that an expression of the People of Milwaukee might be had on this question, and authority obtained from the Legislature for the Common Council to grant the aid asked hereafter, should they think fit so to do.

Mr. JAMES S. BROWN followed in a very strong and eloquent argument in support of the majority report. He spoke as a warm and earnest friend of Internal Improvements, but he spoke, too, as a friend to the credit, the interests, and the future welfare of Milwaukee. He did not believe that resolutions could build Railroads, but he *did* believe they might arrest them: and it behoved us to see that we did not destroy our ability to complete a road *already* commenced, by undertaking another of much greater cost, and more doubtful profit. He proceeded to state the present financial condition of the City; the amount of its bonds already issued, and the additional amount now asked for these new works. In conclusion, he appealed to them, as business men, to say whether ordinary prudence did not require them to pause before plunging deeper into debt.

Mr. Jas. H. PAINE next addressed the meeting in urgent advocacy of the minority report, and in illustration of the importance of the Milwaukee and La Crosse Railroad to the interests of our city. He pointed, as an example worthy of imitation, to the City of Cleveland, which, five years ago, was drooping and stationary, but now, by the judicious issue of One Million of her bonds in aid of Railroads, had attained to an unexampled degree of prosperity. So, too, he thought it would be with Milwaukee, if, profiting by the light of experience, she should bend all her energies, and make liberal use of her credit, in prosecuting these important works. Now, he said, was the golden opportunity. Let us strike now, while the iron was hot, or if not yet hot, let us strike hard enough to make it hot.

The Chair here stated the question to be the adoption of the majority report.

Mr. M. H. ORTON moved to amend the majority report by striking out the word "inexpedient," and inserting "expedient." (Loud cries of "Question." "Question.")

Mr. ORTON claimed a hearing. He never spoke longer than *that*—(measuring off a piece of his arm)—and whenever any individual in the meeting said *enough*—

VOICE IN THE CROWD—"I say enough!" (roars of laughter.)

Mr. ORTON thought it was hardly fair to say "enough," before he had said *anything*. He promised to speak but a very few minutes, and obtaining the ear of the meeting, he proceeded to sustain his amendment, and the policy of granting aid to all the proposed roads.

The question being again stated by the Chair, Mr. ORTON withdrew his amendment, and moved to substitute the *minority* for the majority report.

The motion being put, the Chair pronounced it *lost*. A division was called for, and the chair directed the friends of the majority report to take the East side of the Hall, and the friends of the minority report the West side. This being done, the Chair again decided the amendment to be *lost*.

The question recurring upon the Report of the majority, *adverse* to loaning the credit of the City in aid of the La Crosse Rail Road, it was put and declared *carried* by the Chair.

A division of the house was again called for and effected, when the Chair again pronounced the majority report to be *adopted*.

Whereupon the meeting adjourned *sine die*.

Correspondence of the Daily Sentinel.

AN ADVENTURE ON THE LAKES.

MADISON, Sept. 4th, 1852.

Editors of the Sentinel:

I have thought the particulars of the recent narrow escape of one of our citizens from drowning might not be uninteresting to your readers. About 8 o'clock in the afternoon of the 1st a terrific storm from the southwest broke over this section of country. It so chanced that GEORGE STONERS was at the time on his return from a trip across the Fourth Lake, and was overtaken near its centre. He was out in a fine new and strong built sail boat which cost some $70, and had just succeeded in lowering all the sail, when struck in an instant it capsized: and having a quantity of ballast aboard, went down, leaving him about three miles from the nearest shore. The only loose article that floated from the wreck and came within his reach was a stone gallon jug empty and tightly corked. He seized hold of this, and having with great effort divested himself of his clothing, struck out for land, aided by the wind. Conceive, if you can, his position at the time. The rain fell in blinding torrents, and the surface of the Lake was lashed into foam by the tempest, so as not only to obliterate all traces of the shore, but nearly to prevent his taking breath. The storm continued with unabated fury for over an hour, and such was its violence that hundreds of the largest trees on the north side of the Lake, were blown down. It began to break when he had probably gained a mile and a half towards the land, but from his position he did not see it for near an hour after, when the second high point northwest from the village loomed up, but full half a mile distant. The struggle to overcome that half mile Mr. S. describes, as the most desperate part of the adventure. Chilled through by his long immersion, he was several times on the point of giving out, and it was only by the greatest exertions that he kept afloat until near enough for his feet to touch bottom, and then was barely able to crawl upon the beach, which he accomplished about ½ past 4: but his troubles were not yet over. He landed on an island, behind which was a long strip of overflowed land, filled with rushes, stumps and sunken timbers, through which he had to make his way, for half a mile or more, frequently up to the neck in water, before reaching the main shore. A mile further through tough undergrowth brought him to the home of a German, with no further covering than a *shirt and cap*. Here he was supplied with clothing, and after a walk of about six miles, he reached home about dark.

This was certainly one of the narrowest escapes on record. Had the lake been quiet, not one in a hundred would probably have succeeded in making land, at that distance; but when to this was added the terrors of a blinding storm, and the impossibility of forming any correct conjectures as to his real course or position, the chance of escape were greatly diminished. Mr. S. owes his life wholly to his perfect coolness, self possession and great physical endurance, and to the *power of the Jug*. No sign of the boat has yet been discovered; it is supposed to lie in about 150 feet water.—yet may finally be fished up. This is the first accident that has happened on our beautiful lakes, and I have deemed the escape sufficiently marvellous to warrant this epistle. Yours. F.

The New Issue.

The committee appointed by the Southern Rights Convention, at Montgomery, Alabama, in July last, addressed a letter to each of the candidates for President and Vice President, propounding certain questions touching the subject of slavery. Among them are the following:

Has a citizen of the United States the right to *carry slaves into the territory* belonging to the United States, and hold them there as property?—and is it not the duty of Congress to *pass such laws* as may be necessary to protect such property, as well as any other?

Would you, if called to exercise the office of President, *veto any law prohibiting or regulating the commerce* of slaves among the several States?

In case you are called to the Presidential office, and any territory should take steps for admission into the Union as a State, recognizing African slavery in its constitution, and an objection should be made to its admission on that ground, what would be your course in reference to the matter?

Would you veto any and every law of Congress repealing, or so modifying the Fugitive Slave act as to impair its efficiency?

Gen. Pierce's letter in answer to these demands, has not transpired. Judging from his past course, and his recent letter to Mr. De Leon, it will be quite satisfactory to the fire eaters.

Gen. Scott's letter, which is declared *unsatisfactory*, is as follows:

WASHINGTON, July 20, 1852.

Gentlemen—I have the honor to acknowledge your letter of the 4th inst., in which you desire my answers to a number of political interrogatories.

I beg leave to reply that, in my answer to the President of the late Whig National Convention, I made the only declaration of political opinions that I expect to make during the present canvass for the Presidency of the United States.

With great respect, I am, gentlemen,
Your obedient servant,
WINFIELD SCOTT.

The questions above are worthy of note, as doubtless indicating what will be the tenor of the demands of the ultra Southern party, when next it becomes necessary to compromise in order to save the Union.

POST OFFICE OPERATIONS.—A new office has been established called WIND LAKE, in Racine Co., and G. WALTERMIRE appointed Postmaster.

The office at Bloomfield, Walworth Co., has been discontinued, and that of South Bloomfield in the same county, changed to Bloomfield.

THE JERSEY BLUES AGAIN!—The Whigs of New Jersey had a glorious State Convention last week. In numbers and enthusiasm, nothing like it has been seen since 1840. The work goes bravely on!

☞ Mr. C. C. Washburne, of Mineral Point, who has been dangerously ill, is reported convalescent. Judge Jackson informs us that he is considered out of danger.—*Platteville American.*

City Matters.

Milwaukee Horticultural Society.

THE FIRST ANNUAL EXHIBITION of the Milwaukee Horticultural Society will be held at GARDINER'S Hall on Friday afternoon and evening of this week. The premiums offered will be found in our paper this morning as well as the regulations made by the Committee of the Society. It is to be hoped that those intending to exhibit will preserve the list, so that there may be no confusion in the arrangements.

On behalf of the Society we again ask the aid of the ladies who have so kindly and efficiently aided heretofore in ornamenting the room, and making it an attractive place of resort.

From what we hear the show is likely to be a very handsome one.

NURSERY FOR SALE.—It will be seen, by an advertisement in our columns that Messrs. Ironside & Barnard offer for sale their fine nursery on the Milwaukee and Watertown Plank Road, near the Cold Spring House. A personal examination of the grounds yesterday enables us to state emphatically that the opportunity is one not to be neglected by such as desire to go into the business of raising fruit and fruit trees in this State.

Your members of trees, grafts from choice varieties are on hand ready for sale, and there is an extensive orchard of bearing trees, many of these now in full with fruit. A recent visit of a few hours from the establishment has rendered it necessary to dispose of some 10 or 20 inch trees of large size. We hope that those of our citizens who wish to see good fruit grow, will embrace the opportunity to call and see them before the time for their removal.

BAD TIMES.—The train from the West yesterday morning brought in some 1,500 bushels of grain, and the farmers presented a lively scene at 2 o'clock when the buyers gathered to make their purchases. The company will find it necessary to proceed immediately to put up additional building for their freighting business.

Besides the above by railroad, all the roads entering the city poured their quotas of wagons in, groaning under the weight of that loads of produce. The quantity of merchandize going out of the city is large also, showing a healthy state of trade.

BEAUTIFUL FRUIT.—We are again indebted to Mr. JAMES, of Wauwatosa, for some very fine apples, which both eye and palate approve. One of the seedlings, which he has named the Scott apple, would attract attention anywhere.

SALE OF VALUABLE LOTS.—See Mr. C. B WILLIAMS' advertisement of sundry valuable City lots to be offered for sale on the 13th of next month. The advertisement explains the terms and time of sale &c.

CRICKET.—There will be a game of Cricket on the grounds of the Club, at 3 o'clock *this* afternoon. Members are particularly requested to be on the ground punctually.

OUR LIGHT HOUSE.—By a note from Mr. DOTY to the *Wisconsin*, we learn that the Lighthouse Bill contains an appropriation of $5000 for the building of a lighthouse on North Point, instead of the present one, which is to be removed, to let the grade through to the lake.

FIRE.—The large barn, attached to the new Hotel, for of Jefferson street, in the 3d Ward, built by W. B. HIBBARD and others, was destroyed by fire, between 7 and 8 o'clock last evening. It was new, well built, and uninsured. The loss is not far from $1200. The fire was undoubtedly set by design.

Anecdote of Gen. Scott in Mexico.

The following anecdote of Gen. Scott which has never before appeared in print, was handed to us the other day by a Whig of this place who is acquainted with the parties. One of the gentlemen is an artist of considerable ability, and a very life-like view of the battle of Chepultepec, sketched by him at the time, now adorns the walls of the American Art Union. Gen. Scott occupies a prominent place upon the canvas, as he did in the battle—infusing energy into his men dauntless bravery:

Some *years* ago, two young men (brothers) left the city of Albany, to seek their fortunes in the far West, working at their respective avocations wherever they could find employment. After several months' travel, they found themselves in the city of New Orleans. They soon repaired to Galveston (Texas) and in a short time made their way into the city of Mexico, where they successfully engaged in their respective avocations, up to the time that war broke out between that country and the United States. Whereupon they were required to swear allegiance to the country and take up arms against the United States, or to leave the country within a certain number of days. Refusing to comply with the terms of the Mexican Authorities, the young brothers left the city, and proceeded towards Vera Cruz, and after a few days travel they met the old hero Gen. Scott. The eldest brother, James, approached the noble Commander-in-Chief, and told him that he and his younger brother were American citizens and had been driven from the city of Mexico. The General immediately despatched an aid for two horses, which were soon brought him. He then said to the young men: "Mount these horses, and I will take you back, *as I am going that way.* They mounted the horses, and on the morning of the 14th Sept., 1847, these poor boy-exiles entered the city in triumph with the Hero of three Wars, and the conqueror of Mexico.—*Newburgh Gazette.*

A MARINE PRIZE.—CUTTING A TELEGRAPH CABLE.—It is known that an electric telegraph company in Ireland has been attempting to lay a cable across the Irish channel, between Portpatrick and Donaghadee.—The Northern Whig of a recent date, says: "On Friday night a schooner belonging to Larne and bound to that port, anchored to the south of the Copelands to wait the tide. On Saturday night, while hauling in his kedge anchor, the commander found he had caught something heavy, which, on being brought on deck, appeared to him to be a four inch hempen hawser. His crew hauled both ways, but not coming to an end, they cut it and pulled away seaward until they had on board about four hundred yards of what they considered a fine new rope cable. They then cut it a second time, keeping the light on board; and setting to work afresh, they hauled in seventy two yards more, still without arriving at the end of the rope. The captain cut a third time, and with his supposed hempen prize bore away for Larne, where he arrived in the course of Saturday. He communicated to the owner what he considered his good fortune; but, on that gentleman examining the prize, to his utter astonishment and regret, discovered that his captain had possessed himself of a large portion of the hempen cable which encased the electric wires of the Irish telegraph company."

Independent Judicial Convention.

At the head of our columns we place the names of the persons nominated by a Convention without distinction of party, and to be supported for Chief Justice, and Associate Justices of the Supreme Court of this State. Very many persons advocate strongly the plan of electing men independent of party, to the highest Court in our State, and an attempt will be made by the people to carry it into effect.

Edward V. Whiton, the nominee for Chief Justice is acknowledged to be a man eminent as a lawyer, possessing the requisite qualifications to do honor to the high station in which the people will undoubtedly place him.

Marshal M. Strong, and James H. Knowlton are the nominees for Associate Justices, both highly spoken of as men of marked ability and integrity, and worthy the support of the people. —*Sheboygan Mercury.*

The Prospect.

Friends and subscribers at a distance, are continually enquiring of us what we think of the Whig chances of success in the approaching contest?

This is a question well calculated to puzzle the wisest; and he is a bolder politician than we pretend to be, who speaks confidently of the success of either party from existing indications. One thing is however, a palpable, certainty which no sane man of either party will question—*the Whigs have it in their power to elect their candidate, if they desire so to do, and will make the necessary effort.* But it is equally certain, that never before in a contested election for the Presidency, did there exist such an inexcusable apathy in the ranks of both parties, as that which now pervades the whole country within nine weeks of the election. If this state of things continues, Pierce will be elected simply by the party machinery of the Democracy, and Gen. Scott be beaten by default. If however, the Whigs really and earnestly desire to secure the triumph of Whig principles, they have only to rouse themselves to a faithful discharge of their duties, to insure their success. With General Cass, Governor Marcy, Mr. Buchanan or Mr. Douglas, in nomination by our opponents, to have rendered the contest even doubtful, would have required not only the united strength of the Whig party, but an enthusiasm such as that which pervaded our ranks in 1840 and '48 (and no man could safely have predicted the result. But with Pierce in the field as the candidate of Loco Focoism, it is simply necessary for the Whig Party, to resolve upon success to insure it.

We do not intend to speak disparagingly of Gen Pierce; but he is notoriously the weakest candidate ever put in nomination for the Presidency by either of the great political parties, since the organization of our Government. Even his political friends, will concede this fact; and in addition to everything else, his votes in Congress upon the great questions of the Tariff and Internal Improvements, place him in direct hostility to the *interests* and the *feelings* of a majority of the people of the entire North and of nine-tenths of those of the North-west. He is weak personally and politically; and by general consent, wanting in the leading requirements for the Presidency. Neither his talents nor his position before the country, warranted his nomination for that exalted station; and even his political associates desire his defeat, if it can be accomplished through their apathy instead of their avowed hostility.

Now, in opposition to General Pierce, the Whigs have as their candidate—not their most prominent man certainly; not the great statesman whose *nomination* would have been hailed with delight in every hamlet of the Nation and who would have been elected to the Presidency by the greatest vote ever given to any candidate—but they have the very man who, Daniel Webster being dead, would have been the almost unanimous selection of the whig party; and whose talents, discretion, genius, and exalted public services, would have called forth an enthusiasm, second only to that which greeted our triumph in 1840. We have far more reason to be proud of our candidate now, than on that occasion; and although we shall over mourn over the defeat of Mr. Webster at Baltimore as not only a National misfortune, but one of those events which is well calculated to excite regret among the friends of Liberty throughout the world, still we would be wanting in proper regard for truth and justice, did we not bear witness, that as a Whig, a Statesman, and an honest politician, WINFIELD SCOTT is justly entitled to the support of the Whig party, to his their respect and gratitude as a successful Soldier.

With this difference between the two candidates for the Presidency, we have no hesitation in saying in reply to the question so repeatedly asked us, that nothing can be easier than for the Whigs to elect General Scott in November, if they really desire to do so, and prefer the triumph of Whig principles to those of our opponents. At present, however, we freely confess, that we do not perceive the evidence of a desire on the part of the Whigs to succeed. They appear to forget, that their principles are at stake upon the result of this contest; and too many of them, appear to be determined not to struggle for their principles because they cannot have their favorite candidate as well. We cannot but sympathise with them in their regret at the loss of their and our candidate. But regrets are now unavailing; and the time has arrived when every Whig who places a proper value upon Whig Principles, owes it to himself and to his country, to enquire what is his duty in the coming contest, and how that duty can best be discharged. The self-examination we feel assured, will be made, & we correspondent but the result will be all that can be desired. As evidence of this, we anticipate witnessing very shortly, a new spirit exhibiting itself in the Whig ranks; and then there can be no question of our success.

Independent Judicial Convention.

A gentleman who has just returned from Madison informs us that on motion of Mr. Penney, of Madison, EDWARD V. WHITON, of Rock, was nominated by acclamation, for Chief Justice, and JAMES H. KNOWLTON, of La Fayette Co. MARSHAL M. STRONG, of Racine, for Associates

Judge Wright, of Prairie du Chien, presided, and on taking the chair made some very pertinent remarks. The Convention was well attended and the utmost harmony prevailed. The nominations are unexceptionable, and their success will admonish partizans that in an election for Judges the people look higher than party—they look to the good of all. Grant County had no voice in the convention, but she will endeavor to be heard at the polls.—*Platteville American.*

☞ We understand that the Rev. Dr. Kip, of this City, has received a very urgent call to the Rectorship of St. Paul's Church, Milwaukee, Wis. This is a large and flourishing Parish, more so, probably, than any West of Albany. We do not know whether Dr. K. will accept or decline the call. We should regret very much to lose him from our city, as he has been with us some fifteen years, during which time he has been known by all as a zealous, faithful and eminently successful Minister of Christ. His Congregation, almost wholly the result of his labors, we should think, would be loth to part with him.—*Albany Evening Journal.*

The steamer *Atlantic*, as she now lies, was offered at auction this morning. She was put up at $16,000, and there being no bid above it, she was not sold.

From California.

New York, Sept. 7—2 P. M.

The steamer Northern Light, of the Nicaragua line, arrived at 11 o'clock, bringing news in 34 days from San Francisco.

Her news has been mostly anticipated by our despatches, and per the Daniel Webster.

The *Light* brings 300 passengers, who have $300,000 in gold.

They left San Francisco on the 30th inst, and have made the quickest trip on record.

The health of San Juan is good. Hon. Edward McGaughey died on the 6th, of Panama fever.

The overland emigration continued to pour in on a large scale.

Crime throughout the State was thought to be decreasing.

Anecdote of Gen. Scott in Mexico.

The following anecdote of Gen. Scott which has never before appeared in print, was handed to us the other day by a Whig of this place who is acquainted with the parties. One of the gentlemen is an artist of considerable ability, and a very life-like view of the battle of Chapultepec, sketched by him at the time, now adorns the walls of the American Art Union. Gen. Scott occupies a prominent place upon the canvas, as he did in the battle—infusing energy into his men dauntless bravery:

Some years ago, two young men (brothers) left the city of Albany, to seek their fortunes in the far West, working at their respective avocations wherever they could find employment. After several months travel, they found themselves in the city of New Orleans. They soon repaired to Galveston (Texas) and in a short time made their way into the city of Mexico, where they successfully engaged in their respective avocations, up to the time that war broke out between that country and the United States. Whereupon they were required to swear allegiance to the country and take up arms against the United States, or to leave the country within a certain number of days. Refusing to comply with the terms of the Mexican Authorities, the young brothers left the city, and proceeded towards Vera Cruz, and after a few days travel they met the old hero Gen. Scott. The eldest brother, James, approached the noble Commander-in-Chief, and told him that he and his younger brother were American citizens and had been driven from the city of Mexico. The General immediately despatched an aid for two horses which were soon brought him. He then said to the young men: "Mount these horses, and I will take you back, *as I am going that way.* They mounted the horses, and on the morning of the 14th Sept., 1847, these poor boy-exiles entered the city in triumph with the Hero of these Wars, and the conqueror of Mexico.—*Newburgh Gazette.*

A MARINE PRIZE—CUTTING A TELEGRAPH CABLE.—It is known that an electric telegraph company in Ireland has been attempting to lay a cable across the Irish channel, between Portpatrick and Donaghadee.—The Northern Whig of a recent date, says: "On Friday night a schooner belonging to Larne and bound to that port, anchored to the south of the Copelands to wait the tide. On Saturday night, while hauling in his kedge anchor, the commander found he had caught something heavy, which, on being brought on deck, appeared to him to be a four inch hempen hawser. His crew hauled both ways, but not coming to an end, they cut it and pulled away seaward until they had on board about four hundred yards of what they considered a fine new rope cable. They then cut it a second time, keeping the light on board; and setting to work afresh, they hauled in seventy two yards more, still without arriving at the end of the rope. The captain cut a third time, and with his supposed hempen prize came away for Larne, where he arrived in the course of Saturday. He communicated to the owner what he considered his good fortune; but, on that gentleman examining the prize, to his utter astonishment and regret, discovered that his captain had possessed himself of a large portion of the hempen cable which encased the electric wires of the Irish telegraph company."

Independent Judicial Convention.

At the head of our columns we place the names of the persons nominated by a Convention without distinction of party, and to be supported for Chief Justice, and Associate Justices of the Supreme Court of this State. Very many persons advocate strongly the plan of electing men independent of party, to the highest Court in our State, and an attempt will be made by the people to carry it into effect.

Edward V. Whiton, the nominee for Chief Justice is acknowledged to be a man eminent as a lawyer, possessing the requisite qualifications to do honor to the high station in which the people will undoubtedly place him.

Marshall M. Strong, and James H. Knowlton are the nominees for Associate Justices, both highly spoken of as men of marked ability and integrity, and worthy the support of the people. —*Sheboygan Mercury.*

The Prospect.

Friends and subscribers at a distance, are continually enquiring of us what we think of the Whig chances of success in the approaching contest?

This is a question well calculated to puzzle the wisest: and he is a bolder politician than we pretend to be, who speaks confidently of the success of either party from existing indications. One thing is however, a palpable, certainty which no sane man of either party will question—*the Whigs have it in their power to elect their candidate, if they desire so to do, and will make the necessary effort.* But it is equally certain, that never before in a contested election for the Presidency, did there exist such an inexcusable apathy in the ranks of both parties, as that which now pervades the whole country within nine weeks of the election. If this state of things continues, Pierce will be elected simply by the party machinery of the Democracy, and Gen. Scott be beaten by default. If however, the Whigs really and earnestly desire to secure the triumph of Whig principles, they have only to rouse themselves to a faithful discharge of their duties, to insure their success. With General Cass, Governor Marcy, Mr. Buchanan or Mr. Douglas, in nomination by our opponents, to have rendered the contest even doubtful, would have required not only the united strength of the Whig party, but an enthusiasm such as that which pervaded our ranks in 1840 and '48 and no man could safely have predicted the result. But with Pierce in the field as the candidate of Loco Focoism, it is simply necessary for the Whig Party, to resolve upon success to insure it.

We do not intend to speak disparagingly of Gen Pierce; but he is notoriously the weakest candidate ever put in nomination for the Presidency by either of the great political parties, since the organization of our Government. Even his political friends, will concede this fact; and in addition to everything else, his votes in Congress upon the great questions of the Tariff and Internal Improvements, place him in direct hostility to the *interests* and the *feelings* of a majority of the people of the entire North and of nine-tenths of those of the North-west. He is weak personally and politically; and by general consent, wanting in the leading requirements for the Presidency. Neither his talents nor his position before the country, warranted his nomination for that exalted station; and even his political associates desire his defeat, if it can be accomplished through their apathy instead of their avowed hostility.

Now, in opposition to General Pierce, the Whigs have as their candidate—not their most prominent man certainly; not the great statesman whose nomination would have been hailed with delight in every hamlet of the Nation and who would have been elected to the Presidency by the greatest vote ever given to any candidate—but they have the very man who, Daniel Webster being dead, would have been the almost unanimous selection of the whig party; and whose talents, discretion, genius, and exalted public services, would have called forth an enthusiasm, second only to that which secured our triumph in 1840.—We have far more reason to be proud of our candidate now, than on that occasion; and although *we* shall ever mourn over the defeat of Mr. Webster at Baltimore as not only a National misfortune, but one of those events which is well calculated to excite regret among the friends of Liberty throughout the world, still we would be wanting in proper regard for truth and justice, did we not bear witness, that as a Whig, a Statesman, and an honest politician, WINFIELD SCOTT is as justly entitled to the support of the Whig party, as he is to their respect and gratitude as a successful Soldier.

With this difference between the two candidates for the Presidency, we have no hesitation in saying in reply to the question so repeatedly asked us, that nothing can be easier than for the Whigs to elect General SCOTT in November, if they really desire to do so, and prefer the triumph of Whig principles to those of our opponents.—At present however, we freely confess, that the evidences of a desire on the part of the Whigs to succeed. They appear to forget, that their principles are at stake upon the result of this contest; and too many of them, appear to be determined not to struggle for their principles because they cannot have their favorite candidate as well. We honor and sympathise with them in their regret at the loss of their and our candidate. But regret and sympathy are now too late, the time has arrived when every Whig who places a proper value upon Whig Principles, owes it to himself and to his country, to enquire what is his duty in the coming contest, and how that duty can best be discharged. The self-examination we feel assured, will be made, & we cannot doubt but the result will be all that can be desired. As evidence of this, we anticipate witnessing very shortly, a new spirit exhibiting itself in the Whig ranks; and then there can be no question of our success.

Independent Judicial Convention.

A gentleman who has just returned from Madison informs us that on motion of Mr. Tenney, of Madison, EDWARD V. WHITON, of Rock. was nominated by acclamation, for Chief Justice, and JAMES H. KNOWLTON, of La Fayette Co. MARSHALL M. STRONG, of Racine, for Associates.

Judge Wright, of Prairie du Chien, presided, and on taking the chair made some very pertinent remarks. The Convention was well attended and the utmost harmony prevailed. The nominations are unexceptionable, and their success will admonish partizans that in an election for Judges the people should be higher than party if they look to the good of all. Grant County had no voice in the convention, but she will endeavor to be heard at the polls—*Platteville American.*

We understand that the Rev. Dr. Kip, of this City, has received a very urgent call to the Rectorship of St. Paul's Church, Milwaukee, Wis. This is a large and flourishing Parish, more so, probably, than any West of Albany. We do not know whether Dr. K. will accept or decline the call. We should regret very much to lose him from our city, as he has been with us some fifteen years, during which time he has been known by all as a zealous, faithful and eminently successful Minister of Christ. His Congregation, almost wholly the result of his labors, we should think, would be loth to part with him.—*Albany Evening Journal.*

THE TRIBUNE.

SCOTT Leads the Column!—Forward!

"Now, brothers, now is the hour!"

THE publishers of THE NEW YORK TRIBUNE issue 3 mammoth copies of their regular and full Weekly issue of 56 large pages, each six columns, of Literature, Politics and News, for the remainder of the Presidential Campaign, commencing with the 7th of August and closing with Nov. 25th, when, we confidently hope to announce their triumph,—on the following terms:—

1 copy for the 15 weeks.....$0 37½
6 copies, to one address.....2 00
10 copies do do.....3 00
25 copies do do.....7 50

Payment in all cases to accompany the order.

The selection of WINFIELD SCOTT for President, and WILLIAM A. GRAHAM for Vice-President, has granted our ardent wishes and strengthened our earnest hopes. Our nomination has long been fixed, that Gen. Scott is the very man to stand and stand out by his heroic achievements his inestimable services at critical periods, in preserving our National tranquility and preventing the effusion of blood—by his unquestioned and illustrious, yet self-divesting patriotism, his unpretending position and his unassuming resolution to unite the White Masses in one enthusiastic, invincible host and lead them on to victory. We believe, we have labored and hoped for his nomination, and we now confidently look to the results to justify our sanguine anticipations.

THE TRIBUNE, standing on its own platform and knowing no other, will do its utmost for the election of SCOTT and GRAHAM; but it will not be absorbed by Political discussion. We have chosen to treat Current Topics briefly, rather than at length—small and pulpy subscriptions, at cheaper rates than ever before offered, because the postage is the same, and because we wish to extend the knowledge of what THE TRIBUNE habitually is. The letters of our Associate, Bayard Taylor, who next writes us from Syria, the ruins of Nineveh, Constantinople, &c., will appear every week, with reviews of new Books, Proceedings of Congress, and a Tribune Persian and Domestic News of the Day. If there is another journal in America more valuable or interesting than THE TRIBUNE, it is not because more money or labor is spent thereon.

All the Editions of THE TRIBUNE are printed in large Quarto form, on a sheet 31 by 42 inches, showing eight large and compact pages of reading matter. Almost half the Daily is devoted to Advertisements, very few of which appear in our other issues. No one dollar daily in the world contains more reading matter than THE TRIBUNE, which is afforded at $8 per annum, or $4 for 6 months.

SEMI-WEEKLY TRIBUNE:
One copy (per annum) $3; Two do. $5; Ten do. $20.
WEEKLY TRIBUNE:
One copy (per annum) $2; Three do. $5; 8 do. $10; Twenty do. (one address) $20.

☞ Payment is in all cases required in advance.

Subscriptions for THE CAMPAIGN TRIBUNE, or either of our regular issues, are respectfully solicited. All notes of specie paying banks taken at par and may be remitted at our risk. Please address

Green Block, Water St.,

(Between Malden Lane and Wall Street,)

NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURglar-Proof Iron Safe in competition with the whole world at the great Exhibition in London, for which an impartial jury awarded a medal.

The American Fair, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof Safe, and he has never failed to obtain the highest premium when his Safe has been put in competition with others for that purpose. Certificates have been received from the following well-known responsible houses, who have had their books, papers and money preserved in these superior Safes within the last thirty days, (and can, with pleasure, be seen at any time,) viz: Messrs. Sellwell & Montrose, and Mr. J. L. Watkins, in the Fulton Street fire; Messrs. Fisher & Robinson, and Messrs. John Lockwood & Co., in the great fire on the corner of Nassau and Nassau Streets, Printers and Book Binders, in Jersey City.

I am the proprietor of HALL'S PATENT LOCK, which obtained a medal (in the name of Adams & Co., Boston,) at the World's Exhibition, and is considered the best Lock for the price, ever invented, being proof against powder, and the Key is no larger than a cent, and can be made changeable.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best Fire, Burglar and Damp Proof Safes combined.
